MEMORANDUM

TO: Files February 25, 1983

FROM: Eric Hoffman

SUBJECT: U-a/U-b Tract Inspection

Personnel Present:

Jim Godlove	WRSOC
Eric Hoffman	OSO
Don Johnson	OSO

Primary Purpose of Inspection: Lease Compliance

Activities:

Work at all facilities in Mine Development Area was under way except substation due to unresolved off-tract permanent power supply issue. Lessee intends to use portable generator set at various construction sites until power supply problem is resolved. Mine management and first phase warehouse building will be ready for occupancy soon. Tanks and building superstructure were in place for water treatment plant. Modular units for sewage treatment facility had been delivered and lagoon completed. Runoff retention dam cutoff trench was excavated and grouting operations were underway. Riprap had been placed along south side of White River to protect alluvial water supply wells. All frequently traveled roads were either paved or graveled and low safety berms in place. Housekeeping was generally good.
